

Roger Claar
Lead Design Architect • DEV, INC.

With over 40 years of experience in Architecture, Mr. Roger Claar has performed as a Lead Designer or Senior Project Architect on many of the projects over his career. The diversity and depth of his expertise includes simple corporate projects as well as multi-faceted and complex international award winning new construction projects. As the Lead Design Architect for Dev, Inc. Roger is the backbone of the design services offered by the firm and has the expertise required to respond quickly to client needs including management of RFIs and providing detailed sketches/drawings. His level of expertise directly contributes to the firm's success as a true design builder who understands how to adapt design and cost of construction to the actual budget. Roger is a Registered Architect with licenses in Kansas and Missouri. He also holds a Bachelor's of Architecture and Design Degree from Kansas State University in Manhattan, Kansas.
